

Workshop “ Review of CMCs”

Activity organized by SIM TC

Open activity

Punta Cana- Dominican Republic

Ocean Blue Hotel & Sand

November 18, 2015: 14:00 – 19:00 h

DRAFT Agenda:

Presentation: “Regional and interregional review of CMCs – document CIPM MRA D04”

Responsibilities of SIM as an RMO in CIPM MRA issues - Claudia Santo

Q&A

Presentation of specific processes of some MWG with emphasis in the specificities of these processes and why MWG decided to do it this way:

- Chemistry
- Electricity
- Other MWG that have specificities to present?

Q&A

Work in groups:

Issues proposed to be discussed:

- Which problems do we have in the different processes (regional and interregional)?
- Identification of bottlenecks in our processes and ways to minimize them.
- Identification of “good practices” that can improve the efficiency of processes.

Final summary and proposals

Evaluation of the activity
